List of War Fund Contributors

Below is a list of contributors to the Appomattox War Fund campaign, as announced by Chas. T. Moses, chairman, and W. M. Abbitt, tressurer. The two companies of Virginia Reserve Militia undertook the task of raising the quota of $3,000 which was assigned Appomattox County. Under the direction of Captains C. G. O'Brien and George Abbitt, Jr., Appomattox was the first county in Virginia and the second in the nation to obtain its quota and go over the top. Governor Colgate W. Darden has expressed his deepest appreciation for the task so well done by the Minute Men and to every contributor to this cause for the support of our armed forces and the refugees of the destitute countries. The list:

Bill—that's me—leads a hard life. I'm nursemaid and dog-robber for every rookie, buck private and ordinary seaman that rides with me. Which at times is too many for one bus.

However, you're welcome, and no matter how thick you come, I'll do my durndest to tuck you in somewhere. That's the least I can do for you chaps who may soon know what real hardship is. But when you come back, then I'm expectin' to give you some *real service.*

A blown out fuse is nothing mysterious. Fuses are safety valves of your electrical system. When a cord becomes worn or an appliance develops a defect, the fuse "blows" to prevent more serious trouble. Too many lamps or appliances on one circuit may also cause a blown fuse.

Replacing a fuse plug (the common type) is as easy as screwing in a light bulb. Make the replacement yourself—save yourself inconvenience and save the gasoline and tires of your electric service company.

The first thing to do is to disconnect the lamp or appliance that caused the fuse to blow. Then, flashlight in hand and with a new fuse of the right size, go down to the fuse box and carefully follow the three steps outlined below.

STEP ONE—Locate the main cut-off switch near your meter box, and stand on a dry surface, turn off the electricity.

STEP TWO—Unscrew the "blown out" fuse, touching only its top. You can tell it by the burned patch in the window on top of the fuse.

STEP THREE—Replace burned fuse with new fuse of proper size. Then turn on main electric switch.

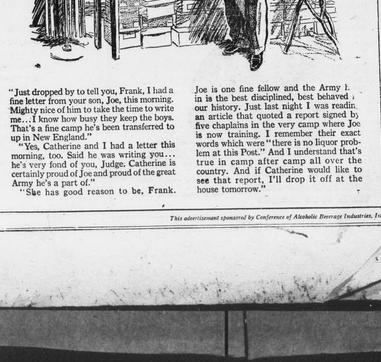
THE OLD JUDGE SAYS...



"Just dropped by to tell you, Frank, I had a fine letter from your son, Joe, this morning. Mighty nice of him to take the time to write me... I know how busy they keep the boys. That's a fine camp he's been transferred to up in New England."

"Yes, Catherine and I had a letter this morning, too. Said he was writing you... he's very fond of you, Judge. Catherine is certainly proud of Joe and proud of the great Army he's a part of."

"She has good reason to be, Frank. Joe is one fine fellow and the Army I. in is the best disciplined, best behaved our history. Just last night I was readin an article that quoted a report signed by five chaplains in the very camp where Joe is now training. I remember their exact words which were "there is no liquor problem at this Post." And I understand that's true in camp after camp all over the country. And if Catherine would like to see that report, I'll drop it off at the house tomorrow."

REPORT ON FARMER SALES OF RATIONED FOODS

The attention of farmers is again directed to the law that if they sell or trade rationed foods, such as fresh meat, all types of sausage, lard or butter, they are required to collect ration points from purchasers, the same as retail stores. All ration points thus collected are to be turned in monthly to the farmer's local ration board, together with a simple report on sales.

OPA SETS CEILING PRICE ON ALL TYPES OF LUGGAGE

Effective Monday, all types of luggage, including the soft or rigid per variety, were placed under a uniform system of retail ceiling prices for luggage by OPA, regardless of what type of store sells it.

The purpose is to check rapidly rising prices for luggage in the face of a shortage of luggage supplies. The effect, an OPA statement said, will be to reduce retail prices considerably and after November 1, all luggage sold at retail must carry tags showing the specific top legal price for that item.

Lt. George Cale

Lt. George Cale, son of Mr. and Mrs. F. B. Cale, of Appomattox, is stationed at Fort Lewis, Washington. He has recently been promoted from the rank of second lieutenant to that of first lieutenant.

VIRGINIA FOOD GOALS CALL FOR REDUCTION IN HOGS, CHICKENS

Blacksburg, Va., Oct. 20.- Virginia's food production goals for 1944 call for sustained or slightly greater production of sweet potatoes, vegetables for processing, corn and other feed grains, peanuts, hay, eggs, and milk and milk products, Redactions from 1943 are suggested for cotton, Irish potatoes, poultry and hogs.

Farmers in the state will be asked, however, to increase considerably the output of fresh vegetables, tobacco, wheat, soybeans, and clover seed next year.

The goals were set at a meeting of state agricultural workers and representatives of the War Food Administration here last week. They represent the amounts of food and feed the nation and the armed forces from Virginia farms, as well as the stimated production capacity of farms in the state.

Conferees recommended fairly heavy reductions for poultry and hogs, in line with the current scarcity of feed and the anticipated feed supply for 1944. A drop in chickens and broilers from 39 million six hundred thousand to 32 million and a drop from 247,000 sows farrowing in 1943 to 198,000 in 1944.

In order to keep pastures in full production, it is suggested that the number of cattle, calves on farms remain about the same, with a slight increase in the number of beef cows. An increase of 15,000 head is recommended in sheep and in lambs.

The suggested increased acreage in wheat is from 492,000 acres to 550,000. The corn acreage goal for 1944 is 1,400,000 acres as compared with 1,345,000 acres in production this year.

For flue-cured tobacco, an increase of 8,700 acres over this year is being asked, while the burley tobacco goal is about 1,000 acres higher.

Farmers to Get Milk Subsidy Payments

The War Food Administration today announced the rates of payment which will be made to farmers delivering whole milk and butterfat to meet increases in dairy feed costs since September 1942. These rates are applicable for October, November and December 1943 the period for which the dairy feed program has been announced.

The rates range from thirty cents a hundredweight on whole milk deliveries and four cents a pound on butterfat in such States as Minnesota, Iowa and Wisconsin to fifty cents a hundredweight on whole milk and six cents a pound on butterfat in New Jersey, Massachusetts, Connecticut, Rhode Island and southern California.

Payment will be made by draft direct to the producer upon the submission... to the County AAA committee for the county in which the applicant's farm is located... of satisfactory evidence of the quantity of milk or butterfat sold.

For dairy producers selling whole milk to cooperative associations, milk distributors or evaporated milk plants, cheese factories, etc., the statement normally furnished the producer will constitute satisfactory evidence, provided it shows the quantity of whole milk delivered. Similarly, the receipts furnished by creameries for butterfat deliveries will constitute satisfactory evidence. Dairy producers who retail milk will need to substantiate their claims by submission of customers' lists or other supporting evidence. Producers who sell butter to consumers, local stores, etc., will need to obtain receipts from the buyers or other evidence of sale. Payments on sales of butter will be made at 80 per cent of the rate on butterfat, since there are about four pounds of butterfat in five pounds of butter. Payment on sales of cream will be made at 22½ per cent of the rate on butterfat, since there is about one pound of butterfat in five pounds of cream.

The War Food Administration emphasized that dairymen delivering whole milk should be sure that the records are being furnished them by the buyer and show the hundredweight of milk delivered, and not merely the quantity of butterfat in it, since the feed payment will be based on the weight of milk delivered rather than on the pounds of butterfat in such milk.

Instructions for handling the program and the procedure to be followed in making the payment will be forwarded to State and County AAA Committees. Forms will be sent to county committees as soon as they can be printed. It is expected that in most instances, the first payments will cover October deliveries of dairy products but the exact time of payment will depend on the availability of the forms.

The rates in Virginia counties will be forty cents per hundredweight on milk and five cents per pound on butterfat.

Wreath Honors Virginia Chaplain

ICELAND—The grave of Chaplain (Major) Robert H. Humphrey is decorated by the Rev. Dr. William B. Pugh in the course of his visit here to take up the mission of the late Bishop John Wright Leonard to overseas chaplains. Bishop Leonard, Chaplain Humphrey and Chaplain (Colonel) Frank T. Miller, a Presbyterian, lost their lives in a plane crash last May in which Lt. Gen. Frank M. Andrews and ten other officers and soldiers were killed. All were buried here in the cemetery.

Chaplain Humphrey was a member of the Virginia Conference of The Methodist Church. He had been in service in England, but upon Bishop Leonard's arrival, as a denominational courtesy, had been assigned as aide to the Methodist bishop. He was from Lynchburg.

Dr. Pugh, Stated Clerk of the Presbyterian Church, U. S. A., was chosen chairman both of the Commission on Army and Navy Chaplains and the Service Men's Christian League to succeed Bishop Leonard. His mission as the representative of the Protestant churches of the United States to their men abroad will continue another month.

Farm Income Hit Record

Bountiful crops and good prices in 1942 increased the United States farmers' net income $3,650,000,000 over 1941, the farmers' largest cash income in history. For the most part, the increased farm income is being spent soberly. The farmers remember what happened during the prosperous period after the first World War and are not throwing their money away.

In a study made by the Bureau of Agricultural Economics of the Department of Agriculture in 35 representative counties, farmers commonly reported that one of the first things they did with last year's income was to take care of "a little item up at the courthouse." By the spring of 1943, most farmers had caught up with their back taxes, and over 90 per cent of the farmers in most of the counties studied had paid current taxes two months ahead of the penalty date.

Old debts, current obligations, and even payments not yet due are being cleared up. Nearly all delinquent Federal Land Bank loans have been paid, as have current maturities, with considerable amounts of money deposited with the bank for future payments. In a county in east Nebraska, payments amounted to five times the 1942 maturities.

Many farmers bought land, but usually not at inflated prices. Real estate agents in Georgia, Alabama, Mississippi, and other southern states report that a majority of the farm real estate purchases are being made by farm tenants, or small farmers who want a larger acreage. During the past year, the majority of land buyers have been farmers, rather than investors. Many factory workers in the smaller towns have been buying extra plots to

PUT TOP CEILING PRICE ON LIST OF VEGETABLES

OPA has set a new seasonal range of retail ceiling price for 13 green vegetables which will be substantially below those which prevailed last winter. They will represent reductions of as much as 30 and 50 per cent in the retail prices of such items as lima beans, cabbage, tomatoes, cucumbers and cauliflower. Other vegetables to be covered in the pricing regulation are snap beans, carrots, celery, eggplant, lettuce, green peas, peppers and spinach. Top prices for five more vegetables... beets, asparagus, watermelons, cantaloupes and the 1944 crop of onions will be announced soon.

Meanwhile, top retail prices have already been placed on fresh apples, grapes, oranges and lemons.

Registration for War Ration Book Number Four will take place at the following public schools of Appomattox County from 2 to 9 P. M. on next Monday Tuesday and Wednesday, October 25, 26, and 27:

- Appomattox high school
- Pamplin high school
- Carver high school
- Evergreen school
- Oakville school
- Vera school
- Spout Spring school
- Stonewall school.

Ration Book Number Four will not be mailed but will be given out at the schools at the time of registration. One adult member of the family may register for all members of the family living together at one address.

For each person to be registered, the person doing the registering must bring along War Ration Book Three. If he does not have War Ration Book Three, go to your ration board office in Appomattox before you go to the school. All the facts needed to fill out the application for Book Four will be the full names, ages, and sex of members of the family, the OPA says. Consumers will not have to declare stocks on hand ..either commercial or homemade.

War Ration Book Four will be used beginning November 1 for processed foods, canned goods, and sugar. Green Stamps A, B, and C (for processed foods and canned goods) will become valid November 1, and will remain valid through December 20, 1943. Blue Stamps X, Y and Z (for processed foods and canned goods) from Book Two are still valid and will remain so through November 2. Green stamps in Book Four will be used in exactly the same way as the blue stamps in Book Two.. the letters indicate the validity period, the numbers indicate the point values.

On November 1, sugar stamp number 29 also becomes valid and 5 good through January 15, 1944. Other stamps in War Ration Book Four will not be used until a later date. The stamps in Book Four labeled "coffee" were printed before coffee rationing was discontinued, and do not mean that coffee will be rationed again soon.

Public school teachers, principals and other volunteers will be in charge of the registration next week. It is requested that the widest possible publicity be given to this announcement, so that every man, woman and child in this county will be informed and get his or her ration books.

NOTICE TO THE VOTERS OF APPOMATTOX COUNTY:

Tuesday, November 7 is election day. Many voters are now in the armed forces, and it is very important that every qualified voter go to the polls and vote, so our girls and boys in the service will know they can depend on us to take care of every responsibility and duty.
